To Sonitrol Pacific:

Here at Mt. Si Golf and Pro shop we have been Sonitrol customers since 1986. We are located in the beautiful Snoqualmie Valley near the base of scenic Mount Si. We want to extend to our patrons year round serenity and picturesque views. That's why we have chosen Sonitrol Pacific as our security company. Because they do their job; we are free to do ours.

Sonitrol Pacific not only secures our business but recently has shown how they really are our partner in the security industry. Recently our Customer Service Representative, Heather Orso, was out to pay us a visit. She popped in originally just to check on things and update our records. In speaking with us she realized that we had an older Cell Phone Back up unit that needed to be changed out. Heather worked closely with us to find an option that would work well for both parties.

I would recommend installing a Sonitrol system because they provide a wonderful security system coupled with great customer service. It has been a great benefit to our company to have them as our business partner.

Sincerely,

Matt Campbell
