

To Whom It May Concern:

At Parkrose School District we have been customers of Sonitrol Pacific since 1996. They provide security for our eight sites.

They have always provided us with great service so we can concentrate on teaching our students in a safe setting. I enjoy having one customer service rep assigned to handle my account who contacts me after each incident with the details. It is this information that I use to follow up with my staff on incidents.

I can confidently recommend Sonitrol Pacific as a solid and reliable alarm company.

Thank you
