

To who it may concern,

We have been proud customers of Sonitrol Pacific for more than 15 years. And earlier this year we trusted Sonitrol Pacific to add the additional motion viewer coverage for our site. Because of Sonitrol's video verification system, police have been able to make 5 arrests. I am happy that the Sonitrol verification center works with our on-site guard service when there is an incident. We want the Grotto to be a place for everyone to enjoy and Sonitrol Pacific helps us to keep our visitors safe and secure.

Thank You.

Mark Combelic
