Date _____	20 _____
Pay To The Order Of _____	
Non Negotiable	Dollars
Good For Up To 5 Money Orders Free of Service Fee	

November 6, 2009

B & I Check Cashing has been well taken care of by Sonitrol Pacific since 2001. We believe in Sonitrol Pacific because they continue to do everything they said they would do since day one.

When there is a question about equipment or billing, I get answers right away. If my system needs service, it is same day service and I am not billed for it because service is included in what I pay monthly.

My business is inside of a large building with more than 40 other businesses. Our building has an onsite security system and on site guards, and I still wanted Sonitrol Pacific to cover my assets. When I opened this business in 2001, I went looking for Sonitrol because I knew no other system had a higher apprehension rate, no other security company has a lower false alarm rate, and no other system has the respect of the police like Sonitrol Pacific.

Many years ago I was a dispatcher for Sonitrol in Yakima Washington. The fact is, experienced Sonitrol Pacific operators have been trained to listen to live activity and make the determination about if there is a crime in progress or not. When I was an operator, I helped the police catch people on more than 25 different occasions. I know for a fact when a Panic or Hold-up device is activated it turns on the listening devices and Sonitrol gets the police here faster than any other security company can.

I trust Sonitrol to provide the extra security that I need for my business and my employees. I do recommend them to anyone, even if you are inside a building with onsite guards.
